

CHRISTOPHER M. CAUBLE

PRINCIPAL / DALLAS METRO OFFICE

Chris helps his clients capture their marketplace by identifying their competitive advantages and safeguarding them with patents, trademarks, and other intellectual property assets. His efforts lead to ongoing protection for research investments and marketplace identity.

Clients value Chris for his responsiveness, strategic planning skills, and his commitment to identifying and resolving issues before they become real problems. He focuses primarily on patent law, including patent preparation, prosecution, and related patent agreements. Additionally, Chris holds considerable experience in patent eligibility issues, which he discusses in an interview with *MedTech Insight*, featured below.

Chris drafts and prosecutes patent applications involving a wide range of complex technologies, including medical devices, energy production equipment, and food and beverage packaging equipment. Chris has extensive experience working with medical device manufacturers to develop devices that aid in the treatment of chronic diseases. Chris also works with upstream oil and gas equipment manufacturers in developing downhole oil and gas tools for subsea well drilling and completions, riser support devices for offshore rigs, and pump technologies for both downhole and surface applications. In addition, Chris offers experience in renewable energy, consumer products, semiconductors, and computer-related equipment.

PRACTICE AREAS

Patents; Trademarks & Service Marks; Copyrights; PTAB Proceedings

INDUSTRIES

AgriFood Tech; Energy Production & Delivery; Mechanical & Electromechanical; Medical Devices

KEY MATTERS

- Preparation and prosecution of patent applications relating to semiconductor manufacturing processes and equipment
- Preparation and prosecution of patent applications relating to gearing and control systems for wind turbines
