

JENNIFER R. TURCHYN

ASSOCIATE / DETROIT METRO OFFICE

Jennie is dedicated to understanding the connection between *innovation and business*. With two years of experience as a Production Engineer working on solar shingles, Jennie understands the high stakes of the market and the need for thorough IP protection at all stages of development. Her tireless approach to her practice means that she delivers comprehensive research and high quality work on *every matter*. Clients also appreciate her ability to boil complex legal matters down to their essential parts and convey that information in an organized, easily understood way.

Jennie's practice includes preparing and prosecuting patent applications in the mechanical, electromechanical, and chemical arts, as well as preparing patentability opinions for diverse clients. She also has experience in litigation, including legal research, drafting motions, discovery, and jury instructions.

PRACTICE AREAS

Patents; IP Litigation

INDUSTRIES

Automotive & Autonomous Vehicles; Chemistry & Materials Science; Clean & Green Technology; Consumer Products; Energy Production & Delivery; Manufacturing; Medical Devices; Pharmaceutical & Biotechnology
